

# Longi double-sided double-glass photovoltaic panel parameters

Do Longi modules corrode?

LONGi modules passed the IEC61701 salt spray corrosion test, but the corrosion may still occur on where the modules frame is connected to the bracket or where the grounding is connected. In case LONGi modules are installed  $\geq 50\text{m}$  away from the ocean side, and related parts and components should be protected with anti-corrosion measures.

Does Longi have a second generation BC panel?

"Longi's first-generation BC products were primarily positioned for the rooftop market, but the second generation of BC is entirely different," the company said in a statement. "The Hi-MO 9 panel is mainly positioned for the ground-mounted utility market."

Are YLM GG bifacial solar modules good?

Their YLM GG bifacial modules have a high yield thanks to the low LID (Light Induced Degradation) and the temperature coefficient -- a whopping 22.5%. What's The Future for Bifacial Solar Modules?

How to calculate VOC in a Longi module?

(LONGi modules maximum system voltage is DC1000V/DC1500V---actually system voltage is designed based on the selected module and inverter model.) The correction value of VOC can be calculated by the following formula.  $V_{oc} = 1 - v_{Voc} \cdot (25 - T) / T$ : The expected lowest temperature of the installation site.

Are Longi bright products better than BIPV?

LONGi high-efficiency monocrystalline modules have conversion efficiencies 10% -20% more than industry standard BIPV. Where are LONGi Bright products used? What other value do LONGi Bright products provide to customers? How long does it take to get a return on the investment in LONGi Bright products?

What is the clamp size for a PV module?

For framed PV module, the clamp must overlap the module frame at least 8 mm (0.32 inch) but no more than 11 mm (0.43 inch). The cross section of clamp can be adjusted if the module is securely fastened. For frameless PV module, the clamp must overlap the module frame at maximum 15 mm (0.59 inch).

LONGi has a comprehensive product line of green building PV solutions and a complete supply process that provides professional service and full-life-cycle O& M capabilities. LONGi Bright products are used on buildings to achieve an ...
