

Material Photovoltaic Panel Lifting Machine

What is a solar lift?

The Solarlift, also called a panel lift or PV panel lift, is an economical solution for the speedy and safe transport of photovoltaic and solar panels. Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a time-saving space-saving way to reach inaccessible loading areas.

How much weight can a solar panel lift lift?

Raise and lower up to 500 lbs with just the push of a button. Solar, simplified. Our solar panel lift makes your solar installation jobs more efficient than ever before. Lift up to 500 lbs worth of panels and material with just the push of a button. The solar series is the perfect solution for most residential and commercial solar installations.

What is a Geda solar panel lift?

Specially designed with a custom carrier that functions as a cargo receptacle, GEDA's solar panel lift is a time-saving space-saving way to reach inaccessible loading areas. At Mace Industries, we don't just sell you the machines and wave you goodbye.

What is a Solmetric module lift?

Description The Solmetric Module Lift is designed to safely and quickly transport a PV module to a roof. The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder.

How does a PV module work?

The device uses your existing fiberglass Werner or Louisville extension ladder. A pulley system is attached to the top of the ladder. A patented module "hook" attaches to the edge of a PV module frame and prevents lateral sliding of the module in the hook. An operator pulls the rope to raise the module.
