

Microgrid pilot areas in my country

Where can I find information about the community microgrid assistance partnership (C-Map)?

For further information about the request for proposals and program benefits, please visit the Community Microgrid Assistance Partnership website or reach out to cmap@nrel.gov. Learn more about OE. The U.S. Department of Energy's Office of Electricity announced the launch of the Community Microgrid Assistance Partnership (C-MAP).

How can remote communities benefit from Microgrid technology?

"Remote communities are well-positioned to demonstrate optimized microgrid technologies, including those that generate renewable energy locally. With the right design and innovation, microgrid solutions will help lower energy costs, improve energy resilience, and spur economic opportunities."

What microgrids are being built in California?

The Clean Coalition is designing and staging a number of microgrids around California, such as our Goleta Load Pocket Community Microgrid, Solar Microgrids for the Santa Barbara Unified School District, a Residential Solar Microgrid, and more. Key Alcatraz Island Microgrid features:

Who is involved in a microgrid project?

The microgrid project involves multiple customers including the New Belgium Brewery, InteGrid, City of Fort Collins facilities, Larimer County facilities, and Colorado State University main campus facilities, as well as a variety of distributed energy generation technologies.

What are microgrids & how do they work?

Microgrids provide a solution to electrical grid disruptions, such as severe weather events, via localized grids that can operate while connected to the traditional grid or "islanded," as in the case of many remote and Indigenous communities.

How does Direct Relief install a solar microgrid?

Direct Relief engaged a third-party microgrid provider to install, own, and operate a Solar Microgrid. Through a power purchase agreement (PPA), Direct Relief contracted to have the microgrid installed at no upfront cost to them, in exchange for consuming all the energy produced by the Solar Microgrid at a set price.
