

What is the global microgrid market report?

IMARC Group provides an analysis of the key trends in each sub-segment of the global microgrid market report, along with forecasts at the global and regional level from 2023-2028. Our report has categorized the market based on energy source and application.

What are the key factors affecting the microgrid market?

The microgrid market is expected to have a robust growth during the forecast period, primarily due to two main factors, i.e., the global demand for clean energy generation and a self-sufficient source of power generation in times of crisis or grid disconnection.

Which region will dominate the microgrid market during the forecast period?

The Asia-Pacific region is expected to dominate the market during the forecast period due to a high rate of electrification, mainly for rural or semi-urban areas. This section covers the major market trends shaping the Microgrid Market according to our research experts:

Which microgrid market has the highest compound annual growth rate (CAGR)?

The commercial and industrial buildings microgrid market is anticipated to demonstrate the highest Compound Annual Growth Rate (CAGR) throughout the forecast period. This surge can be attributed to the imperative for a dependable power supply to ensure uninterrupted operations across various industries.

Why are key market players investing in Microgrid technology?

Key market players are heavily investing in research and development to innovate and improve microgrid technologies including advancements in energy storage systems, smart grid technologies, and integration of renewable energy sources.

How is the microgrid market segmented based on grid type?

Based on grid type, the microgrid market is segmented into AC microgrid, DC microgrid and hybrid. The hybrid segment is set to expand at a CAGR of over 20.9% through 2032. Growing adoption of solutions offering substantial economic advantages by reducing energy costs and providing financial resilience is fostering the product demand.

Global Microgrid Market: The global microgrid market size reached US\$ 32.1 Billion in 2023. Looking forward, IMARC Group expects the market to reach US\$ 74.5 Billion by 2032, exhibiting a growth rate (CAGR) of 9.5% during 2024 ...

This report forecasts volume and revenue growth at global, regional, and country levels and provides an analysis of the latest industry trends in each of the sub-segments from 2018 to 2030. For this study, Grand
