

Midea energy storage cabinet industrial air conditioner

What is a Midea energy storage unit (Mesu)?

The Midea Energy Storage Unit (MESU) product can store excess solar energy to power your house 24 hours without worrying about power outages. Parallel design avoids the barrel effect of short board batteries and improves usable capacity. Electrical isolation and BMS protection functions ensure battery safety.

What is Midea industrial technology?

Midea Industrial Technology creates better life for billions of end users worldwide with green, efficient and intelligent products and technologies via a number of brands, including GMCC, Welling, Welling Auto Parts, CLOU, Hiconic, Servotronics, MR, MSCT, Toshiba and Motivona.

Does Midea offer a split air conditioning unit with propane?

Already at the end of 2018, a Midea R290 demo unit was delivered to BFS for training purposes in cooperation with GIZ Proklima. Mick Ma (first from left, Midea Europe) presents the split air conditioning unit with propane to two refrigeration technology experts from "Bundesfachschule Kälte Klimatechnik".

How many split air conditioners does Midea make a year?

Midea produces about 40 million split air conditioners per year in China, primarily using R410A and R32 refrigerants. With the further market development of R290 and resulting economies of scale, we will surely be able to offer a good price performance in the domestic and international market," Ma argues.

What training does Midea offer?

For this reason, Midea offers its own technician training courses and sends experts to customers to conduct on-site training. These trainings are partly carried out together with the training centre "Bundesfachschule Kälte Klimatechnik" in Maintal, Germany.

Why does Midea offer a propane technician training course?

In many cases, the flammability of propane is still causing hesitation among wholesalers. Technicians need training in the safe installation and maintenance of the equipment, but also in the correct transport of the gas. For this reason, Midea offers its own technician training courses and sends experts to customers to conduct on-site training.
