

Moving Solar Photovoltaic Panels in the Attic

However, the Remington Solar attic fan may sit atop a rafter if necessary without impeding too much air flow. Page 4 14" hole between the rafters or cut a 19" hole with the roof rafter running through the cut hole. Step 3 The Solar Attic Fan ...

Determining the best route for the conduit and properly sealing the roof penetrations are crucial steps in your solar panel installation process. You'll need to weigh the pros and cons of running the conduit through the attic or on the ...
