

# National distributor of photovoltaic panels

What is the solar photovoltaics supply chain review?

The Solar Photovoltaics Supply Chain Review explores the global solar photovoltaics (PV) supply chain and opportunities for developing U.S. manufacturing capacity.

Are solar photovoltaic map services free?

Map services and data downloaded from the U.S. Large-Scale Solar Photovoltaic Database are free and in the public domain.

What is a photovoltaic component manufacturing capacity map?

The U.S. Photovoltaic Component Manufacturing Capacity map includes any active manufacturing site in the U.S. and their nameplate capacity, or the full amount of potential output at an existing facility, as of January 31, 2022. This does not imply that these facilities produced the amount listed.

There are more than 8 billion square meters in the United States of rooftops where solar panels could be installed. This represents more than 1 terawatt of potential solar capacity. With recent improvements in solar panel design, ...
