

New Energy Generator Solar Energy

What is a solar powered generator?

Solar-powered generators--also called portable power stations--are a growing sector of the power market. I started using these a few years ago and was thrilled with having a clean, efficient charging system that doesn't roar or burn through gas.

What can a solar powered generator charge?

These generators can charge power tools in the shop, laptops for remote work, and personal devices like bluetooth headphones and speakers. A solar-powered generator with a higher power capacity can even power household appliances in the event of a power outage.

Which solar powered generator is right for You?

If you need something portable for a camping trip, then the Jackery 500W might be your best new travel buddy. When deciding what solar powered generator is right for you, consider which types of appliances, tools, and devices you need to charge and how often you'll be without a traditional power source.

What is the best solar generator?

Overall, our choice for the top solar generator is the Jackery Portable Power Station Explorer 500, which provides over 500 watt-hours and eight output ports, but is still lightweight enough to bring with you on the go.

What makes a good solar generator?

Solar generators need to keep the power coming in and going out. The best solar generators can simultaneously charge all your intended devices via whatever plugs are necessary. Any portable power station worth your money will have a high output capacity so you can charge many devices, even if they require a lot of juice.

Are solar generators portable?

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

NOTE: This blog was originally published in April 2023, it was updated in August 2024 to reflect the latest information. Even the most ardent solar evangelists can agree on one limitation solar panels have: they only produce electricity when ...
