

New Energy Storage Power Station Compliance Self-Inspection

Do energy storage systems need to be labeled?

2021 IRC Section R328.2 states: "Energy storage systems (ESS) shall be listed and labeled in accordance with UL 9540." UL 9540-16 is the product safety standard for Energy Storage Systems and Equipment referenced in Chapter 44 of the 2021 IRC. The basic requirement for ESS marking is to be "labeled in accordance with UL 9540."

Are there standards for integrated battery energy storage systems?

There are standards for photovoltaic system components, wind generation and conventional batteries. However, there are currently no IEEE, UL or IEC standards that yet pertain specifically to this new generation of integrated battery energy storage system products. The framework presented below includes a field commissioning component.

What is the energy storage system guide?

Through their efforts, the Energy Storage System Guide for Compliance with Safety Codes and Standards 2016 was developed. This code for residential buildings creates minimum regulations for one- and two-family dwellings of three stories or less.

Do electric energy storage systems need to be tested?

It is recognized that electric energy storage equipment or systems can be a single device providing all required functions or an assembly of components, each having limited functions. Components having limited functions shall be tested for those functions in accordance with this standard.

What if the energy storage system and component standards are not identified?

Table 3.1. Energy Storage System and Component Standards 2. If relevant testing standards are not identified, it is possible they are under development by an SDO or by a third-party testing entity that plans to use them to conduct tests until a formal standard has been developed and approved by an SDO.

What are the IRC requirements for energy storage systems?

There are other requirements in IRC Section R328 that are not within the scope of this bulletin. 2021 IRC Section R328.2 states: "Energy storage systems (ESS) shall be listed and labeled in accordance with UL 9540." UL 9540-16 is the product safety standard for Energy Storage Systems and Equipment referenced in Chapter 44 of the 2021 IRC.
