

New Energy Storage Wire Manufacturer

What is AWG wire & cable?

support in the aftermath of any disaster. AWG provides wire and cable used across utility and industrial applications. These cables can be broken down into three categories including utility cables, industrial cables, and telecommunications and data cables.

Are energy storage systems safe?

They are not only extremely reliable but also safe- as they do not produce or emit any gases and have no possibility of thermal runaway. Ambri is scaling an advanced long duration energy storage technology that will lower the cost of shifting renewable energy to times of high demand.

Why is Microsoft deploying a liquid metal energy storage system?

As part of Microsoft's commitment to be carbon negative, Ambri was selected by Microsoft to deploy its Liquid Metal energy storage system to reduce Microsoft's dependency on diesel, allow for constant renewable power from any source and provide access to ancillary services markets.
