Are refurbished solar panels for sale?

You'll also see refurbished panels for sale. Often when commercial or utility solar farms update their equipment, refurbishers will thoroughly test the used panels and repair or replace internal components prone to wearing out, like cables and connectors, before reselling them.

Can photovoltaic solar panels be disposed of in California?

The State of California passed Senate Bill 489 in 2015, which designated photovoltaic solar panels as hazardous materials; meaning the technology cannot be disposed of in landfills in the state. This poses a problem for decommissioning arrays, since California's the largest solar market in the United States.

Should I buy used solar panels?

If you are purchasing for personal use, you should keep in mind that renewable energy tax credits are not extended to used solar panels. Searching for the best deal when buying used solar panels requires diligence. However, it is worth it as used panels can deliver significant savings over new.
