What is a photovoltaic solar panel?

Photovoltaics, more commonly known as solar panels, are one of the purest and most reliable methods for producing renewable energy. Each panel is composed of photovoltaic cells, which activate when exposed to the sun, absorbing its rays and converting them into clean electricity.

What is a polyvinyl solar panel?

A polyvinyl solar panel is a type of solar panel with a highly textured "prismatic" surface that traps photons within the solar panel that would normally escape from traditional flat solar panels. This results in an increase in the solar panel's generation.

Who designed a transparent solar PV array?

A transparent, organic PV array was built by Armor and designed by Marjan van Aubel. Solar PV is being deployed rapidly on rooftops, in fields, on landfills, and other unusual places. It can also be integrated into the built environment artfully, fusing objective value with subjective enjoyment. Here are five of pv magazine's favorite designs from 2021:

Are architects getting creative with solar panels?

While it is not uncommon for solar cells to be installed as an afterthought, this roundup demonstrates how architects are getting creative with the technology, making it a key feature in their designs without compromising on aesthetics. Read on for 10 buildings completed and upcoming that incorporate solar panels in creative ways:

Does Soltech Energy build solar facades?

Soltech Energy, a Swedish PV system integrator and solar product supplier, builds solar facades. It recently installed a 646.6 kW solar facade on a newly built garage with 300 EV-charging posts in Gothenburg, Sweden, by adopting a special design for buildings with particular airflow patterns.

What are building-integrated photovoltaics (bipvs)?

Today, all that is changing with the invention of building-integrated photovoltaics or BIPVs. This new breed of solar panel is incorporated directly into the building envelope. The sleek panels become an exciting new design element, proudly displayed for all to see.
