Does TCL Zhonghuan have a solar cell plant?

TCL Zhonghuan plans to expand its manufacturing capacities across the value chain with a 25GW solar cell plant. Image: Unsplash

How much will TCL Zhonghuan invest in a convertible bond?

Image: Unsplash Chinese solar PV components manufacturer TCL Zhonghuan plans to issue up to RMB13.8 billion (US\$2 billion) convertible bonds, with the funds to be used for its 35GW annual capacity ultra-thin high-purity mono silicon wafer and 25GW n-type tunnel oxide passivated contact (TOPCon) 4.0 highly-efficient solar cell plants.

How much will TCL Zhonghuan invest in Maxeon?

Chinese wafer manufacturer TCL Zhonghuan says it wants to invest around \$197.5 million to increase its stake in Maxeon from 22.39% to at least 50.1%. A Maxeon spokesperson told pv magazine that the plan would place the company in a solid financial position.

What is Zhonghuan 50GW project?

Zhonghuan shares: Zhonghuan 50GW project officially launched! On March 17-18, 2021, the Zhonghuan Advanced Photovoltaic Conference 2021 and Ningxia Zhonghuan Photovoltaic Materials Co., Ltd. 50GW (G12) solar-grade monocrystalline silicon material smart factory project kick-off ceremony was held in Yinchuan.

How much production capacity can TCL Zhonghuan achieve?

It is understood that TCL Zhonghuan's Jiangsu G12 (210mm) highly-efficient lamination module project can achieve 9GW of production capacity, and Tianjin G12 highly-efficient lamination module project (Phase I) can reach 3GW of production capacity.
