

# Photovoltaic Inverter Market Tracking Report

What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

What is PV inverter market Tracker?

PV Inverter Market Tracker - Quarterly updates providing detailed tracking and forecasting of PV inverter shipments, revenues and pricing, including annual and quarterly data, with segmentation by power rating, voltage, type and isolation. Trackers also includes over 60 detailed supplier market share tables by world, region and country

How is the solar PV inverter market segmented?

By inverter type, the market is segmented into central inverters, string inverters, and micro-inverters. By application, the market is segmented into residential, commercial and industrial, and utility-scale. The report also covers the market size and forecasts for solar PV inverters across major regions.

Why is the PV inverter market growing?

Increased global PV demand: The increased global demand for photovoltaic (PV) systems presents a massive opportunity for the PV inverter market to grow substantially in the coming years.

Which region has the largest solar PV inverter market share?

Asia Pacific is expected to account for the largest solar PV inverter market share, driven by the growing demand for renewable energy and the need for energy independence. The region is home to many developing countries, including China and India, where there is considerable growth in solar photovoltaic (PV) installations.

How big is the Asia Pacific PV inverter market?

The Asia Pacific PV inverter market size held over USD 10.5 billion in 2022. Developing countries and regions with favorable solar conditions have become significant markets for PV inverters and solar installations. Stringent environmental regulations to increase adoption of renewable energy including solar will augment the business scenario.

The PV inverter market size crossed USD 13.32 billion in 2023 and is projected to witness 7.7% CAGR from 2024 to 2032, driven by the rising demand for clean and sustainable energy on the account of the growing concerns regarding ...

The solar PV inverter market reached USD 8.45 billion in 2023 & expected to grow at 5% CAGR between 2024 and 2032, to reach USD 13.13 billion by 2032. ... Track prices with detailed trend reports. Analyse trade

data for supply chain ...
