

Where can I find solar tenders?

A good starting point is Solar Tenders Worldwide, a subscription service that lists live government tenders related to solar projects. In Europe, public sector tenders over a certain value (EUR428,000 for energy) must be published in the Official Journal of the European Union (OJEU).

How many mw was awarded in a solar-plus-storage tender?

As usual, the solar tender was significantly oversubscribed, luring 98 proposals of 493 MW in total, against a target of 100 MW. The awarded capacity was 100.55 MW, coming from 18 projects. The bid price ranged between EUR 0.0355/kWh and EUR 0.0521/kWh. January 2020, 609 MW awarded in 2nd solar-plus-storage tender.

What is the ceiling price for solar in Germany?

The ceiling price has been set at EUR0.0557 per kWh. Last summer, the German government coalition decided to increase the capacity of the solar tenders planned for 2022 from 1.9 to 6 GW and, shortly before Christmas, the European Commission approved this plan.

What is a solar & wind procurement exercise?

The procurement exercise will be the country's second attempt to support large-scale solar and wind under the current auction scheme that plans to assign 2.26GW of renewable energy capacity to drive renewable growth in the power mix.
