

Photovoltaic bracket punching and sawing equipment

What is the production capacity of photovoltaic brackets?

The company's standard industrial plant area is 30,000 square meters, and the annual production capacity of photovoltaic brackets is 6G watts. The cumulative shipment is more than 15G watts. The products are distributed in more than 30 countries and regions around the world.

What is Eva-TPT cutting & punching machine?

EVA-TPT Cutting and Punching Machine | Radiant Pv Solar
1. Cutting speed: 18-23 seconds/ pc;
2. Cutting precision: ±0.2mm;
3. The unwinding device is composed by air expansion shaft, unwinding motor, magnetic powder brake, floating arm and error - correction device;

What is a photovoltaic service provider?

It is a one-stop service provider for the photovoltaic industry, integrating photovoltaic support R&D, design, production, sales and project management. It is committed to becoming the world's leading safety experts of photovoltaic system.

Features and Advantages of Solar Photovoltaic Support Rolling Machine. Support roll forming for both heavy and light-duty use. Adopt changing spacers to make multi sizes profiles sections. Integrate inline flexible punching system. Pre ...

High quality pv solar bracket punching and cutting machine. High quality pv solar bracket punching and cutting machine, Single cutting multiple times, large daily production capacity, higher efficiency than conventional automatic aluminum ...
