What types of electrical plans are included in a PV system?

Electrical Plans, including single-line electrical diagrams showing utility interconnection and all devices comprising the PV system, including, but not limited to: PV arrays, combiner boxes, circuit breakers, disconnect switches, inverters, meters, timers, control devices, and other equipment comprising the complete system.

How do I finance a solar PV installation?

involve partnership with a credible financing partner. Upon application, the financial viability of your business will be assessed as will the bankability of the solar PV installation. When researching which retailer and/or manufacturer best suit your needs, ask them what finance options they offer.

Do I need to meter a photovoltaic system?

It is assumed that aluminum framed photovoltaic (PV) panels mounted on a "post" and rail mounting system, the most common in the industry today, will be installed by the homeowner. While metering the system is encouraged, the specification does not address system wiring elements for associated system sensors or monitoring equipment.

Are solar photovoltaic systems a good investment?

For sites with time-of-use (TOU) and/or demand rates, solar PV systems are to be designed to offset the greatest amount of electricity in higher cost-rate periods and achieve the greatest annual dollar savings. Feasibility evaluations to determine the potential size of solar photovoltaic systems have not been completed.

What documents should be included in a solar roof plan?

At a minimum, these documents must include specific documentation of dead loads, live loads, wind loads, and, where applicable, snow loads for the existing roof design. These plans will provide important information for the solar designer when the homeowner decides to install a system.

Can a contractor recommend a PV system size?

After the contract award, the Contractor can recommend PV system sizes at their discretion, as long as the total aggregated PV system size is within plus/minus 10% of the original estimate. Certain buildings can be added or subtracted, subject to Governmental approval.
