

Photovoltaic double pile bracket installation

Can a racking system be used to ground a PV module?

This racking system may be used to ground and/or mount a PV module complying with UL 1703 only when the specific module has been evaluated for grounding and/or mounting in compliance with the included instructions. The system is a non-separately derived system.

How do I connect a solar stack module to a pedestal?

Modules should be bonded to the Solar Stack pedestals with the manufacturer approved middle/end clamps. Grounding hardware (as a part of the module clamps) forms secure electrical bonds with both the module and the pedestal, resulting in many parallel grounding paths throughout the system.

Are solar stack roof mounting systems UL 2703 listed?

Solar Stack Roof mounting systems are UL 2703 listed. Standard for safety UL/ANSI 2703, Mounting Systems, Mounting devices, Clamping/Retention Devices and Ground lugs for use with PV modules. Solar Stack systems have been evaluated for module-to-system bonding and mechanical load to the requirements of UL/ANSI 2703.

What makes Schletter a good PV mounting system?

Match the natural forces created in a PV mounting system. Schletter has two decades of experience developing rail profiles with exact strength characteristics. All Schletter rails have integrated channels for easy module clamp installation of framed and frameless thin-film modules. Module Clamps Regardless of the module type, Schletter has seen

What is a double rammed post solar ground mount system?

BROAD double rammed post solar ground mount system is suitable for both residential and commercial projects, with strict design and calculation. It can withstand the heavy snow or wind load. BROAD GS5 is suitable for both residential and commercial projects.

Are solar racking systems UL/ANSI 2703 compliant?

Solar Stack systems have been evaluated for module-to-system bonding and mechanical load to the requirements of UL/ANSI 2703. This racking system may be used to ground and/or mount a PV module complying with UL 1703 only when the specific module has been evaluated for grounding and/or mounting in compliance with the included instructions.
