

Photovoltaic energy storage project filing

What is a photovoltaic & energy storage project?

We are actively advancing U.S. utility-scale photovoltaic (PV) and energy storage projects that help decarbonize the nation's electricity grid and deploy modern power to diverse markets at lower cost to customers.

Who are the 11 references for solar photovoltaics with energy storage?

11 References Ardani,Kristen,Eric O'Shaughnessy,Ran Fu,Chris McClurg,Joshua Huneycutt,and Robert Margolis. 2017. Installed Cost Benchmark and Deployment Barriers for Residential Solar Photovoltaics with Energy Storage: Q1 2016

Are solar projects eligible for ITC or PTC?

Solar systems that are placed in service in 2022 or later and begin construction before 2033 are eligible for a 30% ITC or a 2.75 ¢/kWh PTC if they meet labor requirements issued by the Treasury Department or are under 1 megawatt (MW) in size. Click graphic to download as PDF. What projects are eligible for the ITC or PTC?

What is the IRA & how does it affect PV installations?

The IRA,which was passed into law in August 2022,created incentives for domestic PV manufacturing and deploymentthat analysts expect to drive significant increases in U.S. PV installations and use of domestically manufactured components (Feldman et al. 2022).
