

Photovoltaic inverter after-sales service form

Who is Solis solar inverter?

Convenient operation, simple design, check the power status anytime and anywhere. Solis is one of the world's largest and most experienced manufacturers of solar inverters, supplying products globally for multinational utility companies, commercial & industrial rooftop projects, and residential solar systems.

What happened to Siemens PV inverters?

Please ask us! Siemens has adapted its business with SINVERT PV inverters to the changes in the market and will no longer offer new products. After-sales service for our existing customers will continue to be provided in full.

How do I apply for a photovoltaic system?

You need to explain the situation to the residents in your building and the property management department. The application form needs to be signed by the residents and sealed by the property management department, which will then be archived as a grid-connected application. How is a household photovoltaic system put together?

How to choose a Canadian Solar inverter?

The inverter is selected according to system requirements. The inverter power should match the maximum PV modules power, and the DC/AC ratio should match the radiation condition, basically 1.1 to 1.3 DC/AC ratio can be selected, and Canadian Solar inverter supports 1.3 DC/AC ratio.

What is the DC/AC ratio of Canadian Solar inverter?

The inverter power should match the maximum PV modules power, and the DC/AC ratio should match the radiation condition, basically 1.1 to 1.3 DC/AC ratio can be selected, and Canadian Solar inverter supports 1.3 DC/AC ratio. · Does the inverter support remote control? What are the functions?

Does Canadian Solar inverter support remote control?

Canadian Solar inverter supports remote control, including Grid ON/OFF and power factor setting. · Does Canadian Solar inverter have lightning protection module integrated in? Yes, lightning protection modules are integrated on both DC and AC sides. · What are the differences between UL and IEC version inverters?
