

Photovoltaic inverter company analysis

How is the solar PV inverter market segmented?

By inverter type, the market is segmented into central inverters, string inverters, and micro-inverters. By application, the market is segmented into residential, commercial and industrial, and utility-scale. The report also covers the market size and forecasts for solar PV inverters across major regions.

What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

Why is the PV inverter market growing?

Increased global PV demand: The increased global demand for photovoltaic (PV) systems presents a massive opportunity for the PV inverter market to grow substantially in the coming years.

What is a solar PV inverter?

A solar PV inverter is a power inverter that converts electricity in direct current (DC) output from a photovoltaic (PV) solar panel into alternating current (AC) at utility frequency. This can be used for residential and commercial electrical grids or by a local off-grid electrical network, such as microgrids.

What is a solar inverter market?

The solar inverter segment is the largest market in the inverter business, owing to the increasing usage of solar energy all over the world. Through 2023, the US has installed more than 200 GW of solar capacity to power more than 36 million homes, according to the Solar Energy Industries Association.

How big is the Asia Pacific PV inverter market?

The Asia Pacific PV inverter market size held over USD 10.5 billion in 2022. Developing countries and regions with favorable solar conditions have become significant markets for PV inverters and solar installations. Stringent environmental regulations to increase adoption of renewable energy including solar will augment the business scenario.

Solar PV Inverter Market Size & Share Analysis - Growth Trends & Forecasts (2024 - 2029) The Global Solar (PV) / Renewable Energy Inverter Market is segmented by Inverter Type (Central Inverters, String Inverters, and Micro ...

The solar inverter segment is the largest market in the inverter business, owing to the increasing usage of solar energy all over the world. Through 2023, the US has installed more than 200 GW of solar capacity to power more than 36 million ...
