

Photovoltaic inverter foreign trade company

Which inverter vendors dominated the global photovoltaic market in 2022?

Huawei and Sungrow remained market leaders in 2022, as they have done since 2015, while AISWEI and SOFAR entered the top 10 ranking. The top 10 global photovoltaic (PV) inverter vendors accounted for 86% of the market - an increase of 4% year-over-year, whereas the top 3 players captured 60% of the market share for shipments in 2022.

Which PV inverter vendors shipped the most in 2022?

Wood Mackenzie said that the top five vendors shipped more than 200 GW (AC) and accounted for 71% of total global PV inverter shipments in 2022, up 8% from 2021. The report notes that for the top vendor of 2022, Huawei, shipments increased by 83%. Ginlong Solis posted growth of 86%.

How did solar inverter market share grow in 2021?

Global top 10 solar photovoltaic (PV) inverter vendors shored up 82% of market share in 2021, increasing by 2 percentage points compared to 2020, says Wood Mackenzie, a Verisk business (Nasdaq:VRSK). Global PV inverter shipments grew 22% or 40,250 MWac (mega-watt, alternating current) to 225,386 MWac in 2021 compared to 2020.

How PVBL ranked the top 20 global photovoltaic inverter brands in 2023?

On the first day of the conference, PVBL's annual ranking of the Top 20 Global Photovoltaic Inverter Brands was announced. Preferential policies promoted the inverter market growth in 2023. Most of the major inverter companies won a large amount of orders and expanded their capacity with high shipment volume.

How did the PV inverter market perform in 2022?

Overall, global PV inverter shipments saw 48% growth year-over-year in 2022, with an additional 100 GW shipped from 2021. In 2022, the PV inverter industry saw a renewed increase in shipments as the pandemic-related semiconductor chip shortage improved. Huawei and Sungrow covered 52% of the market cumulatively - an increase from 44% in 2021.

Where did PV inverter shipments grow in 2022?

Strong growth in the PV markets in Europe, Asia Pacific and the United States drove the 333 gigawatts alternating current (GWac) of inverter shipments in 2022. Government support has increased across these regions in a bid to meet clean energy goals. Europe held 28% of the global market for PV inverter shipments in 2022.

Trade restrictions are expanding, risking slower deployment of solar PV. As trade is critical to provide the diverse materials needed to make solar panels and deliver them to final markets, supply chains are vulnerable to trade policy risks.

Photovoltaic inverter foreign trade company

As a solar inverter manufacturer and solar system company in the field of new energy, HuaYite has 13 years of experience, mainly supplying pure sine wave inverters/power frequency inverters/high-frequency inverter systems/MPPT ...

We connect manufacturers, distributors and installers and facilitate international trades of solar panels, solar inverters and accessories. Daily updated prices and the largest selection of photovoltaic brands and offers are waiting for you.

Solartraders is the professional marketplace for the photovoltaic industry. We connect manufacturers, distributors and installers and facilitate international trades of solar panels, solar inverters and accessories. Daily updated prices ...
