

# Photovoltaic inverter market distribution

What is the global PV inverter market size?

The global PV inverter market size was estimated at USD 13.09 billion in 2023 and is expected to expand at a compound annual growth rate (CAGR) of 18.3% from 2024 to 2030.

Why is the PV inverter market growing?

Increased global PV demand: The increased global demand for photovoltaic (PV) systems presents a massive opportunity for the PV inverter market to grow substantially in the coming years.

What is solar (PV) inverter market forecast?

Estimations and solar (PV) inverter market forecast are based on factors impacting the market growth, in terms of value. Profiles of leading players operating in the solar inverter market are provided to understand the global competitive scenario.

Which region has the largest solar PV inverter market share?

Asia Pacific is expected to account for the largest solar PV inverter market share, driven by the growing demand for renewable energy and the need for energy independence. The region is home to many developing countries, including China and India, where there is considerable growth in solar photovoltaic (PV) installations.

How will the North America solar PV inverter market grow?

North America solar PV inverter market is also expected to grow at a fast pace during the forecast period as the United States is a significant market for various types of PV inverters. The region's growth is further driven by favourable government incentives, increasing awareness of clean energy, and declining solar panel costs.

Who owns the global solar (PV) inverter market?

Other players that operate in the value chain of the global solar (PV) inverter market are Goodwe, Canadian Solar, Sunpower Corporation, Sineng Electric Co., Ltd., SunPower, Omron Corporation, and others.

Solar (PV) Inverter Market Outlook - 2030. The global solar (PV) inverter market size was valued at \$7.7 billion in 2020, and is expected to reach \$17.9 billion by 2030, registering a CAGR of 8.8% from 2021 to 2030. Solar inverter is an ...

The PV inverter market size crossed USD 13.32 billion in 2023 and is projected to witness 7.7% CAGR from 2024 to 2032, driven by the rising demand for clean and sustainable energy on the account of the growing concerns regarding ...
