

Photovoltaic panel automatic film replacement machine

How to deliver a solar panel making machine or a production line?

To deliver a solar panel making machine or a solar panel production line that performs, we take special care to quality control in each stage: We are at your side in each stage of building your solar panel factory and production lines. Express your needs on solar panel producing, we will create your custom automation equipment.

What is a solar laminator photovoltaic module?

Solar Laminator photovoltaic module. Lamination is one of the most critical processes in solar panel manufacturing; it ensures the quality and durability of the photovoltaic module. We can offer customised laminators to suit all production needs. Laminates the module components applying the right pressure and temperature.

What does a fully automated production line do?

Our fully automated production line is responsible for building each bespoke PV panel on a turnkey basis, automating the entire process from scribing, welding, laying to labelling

What are the different types of solar panel laminators?

Horad provides two types of quality solar panel laminators, double layer and three chamber laminators and double layer and double chamber laminators. The laminating machines adopt cutting-edge technologies and designs to ensure high production efficiency and quality.

Our portfolio includes not only automatic solar panel production lines, but also individual equipment for PV modules production, from glass loading equipment at the beginning to solar panel assembly and testing equipment at the end.

Used for automatically cut and layup second EVA film and TPT backsheets in solar panel production line. An EVA/TPT cutting & layup machine adopts high-precision and reliable cutting and layup technologies to provide efficient solar panel ...

We provide a wide range of manufacturing equipment for thin film (compound, organic, perovskite, etc.) and next-generation PV modules utilizing our 30 years of experience and expertise accumulated in providing silicone crystalline and ...
