

Photovoltaic panel coating machine production line

Why should you choose horad solar panel production lines?

We offer complete solar panel production lines for global customers to manufacture photovoltaic modules based on their specific requirements. Since foundation, Horad has been committed to becoming a leading manufacturer of intelligent PV panel production lines by focusing on the solar panel line R&D, designing, manufacturing, sales and services.

Why do you need a top-of-the-line photovoltaic production line?

Top-of-the-line production lines guarantee seamless production, resulting in high-quality photovoltaic cells and modules. Comprehensive warranty and a responsive after-sales service also provide assurance that assistance does not end at installation. The successful projects speak for our technical force and service capacity.

How are photovoltaic absorbers made?

The manufacturing typically starts with float glass coated with a transparent conductive layer, onto which the photovoltaic absorber material is deposited in a process called close-spaced sublimation. Laser scribing is used to pattern cell strips and to form an interconnect pathway between adjacent cells.

Can horad make customized solar panel lines?

We can make customized automatic solar panel lines according to customer needs. Horad is a specialist in solar panel manufacturing equipment. Our company is committed to providing efficient turnkey lines and a range of individual equipment for customers from around the world. Our products have been exported to over 20 countries and regions by far.

How a production line machine is built?

Machines for the production line are built with materials procured from strict supplier management and quality control methods. The combination of real-time monitoring during production and intensive QC after assures you of high-performance production lines that meet output expectations.

We provide a wide range of manufacturing equipment for thin film (compound, organic, perovskite, etc.) and next-generation PV modules utilizing our 30 years of experience and expertise accumulated in providing silicone crystalline and ...
