

Photovoltaic panel falling off responsibility letter

What happens if a solar project ends a performance period?

UNDERSTANDING SOLAR PROJECT END-OF-LIFE OPTIONS When solar projects reach the end of their expected performance period, there are several management options. They include extending the performance period through reuse, refurbishment, or repowering of the facility or fully discontinuing operations and decommissioning the project.

Is photovoltaics safe?

Photovoltaics is safe! It has far fewer risks and environmental impacts than conventional sources of energy. None-the-less, there are some environmental, safety, and health (ES&H) challenges associated with making, using and disposing of solar cells. Is Today's PV Safe to Make and Use? Yes conditionally.

Can photovoltaic modules be reused or refurbished?

In some cases, photovoltaic modules can be reused or refurbished to extend the system's performance period. If equipment is still in working order, one possibility is to extend leases, permits, and interconnection agreements to continue operation.
