

# Photovoltaic panel intelligent production line manufacturer

Who is a reliable solar turnkey line supplier?

If you are looking for complete solar turnkey lines for photovoltaic module manufacturing, Horad will be your reliable PV solar panel line supplier. A 300MW solar module line is an automatic production line of solar modules. All of the individual equipment has high automation, lowering manual cost and lifting production efficiency.

Why should you choose horad solar panel production lines?

We offer complete solar panel production lines for global customers to manufacture photovoltaic modules based on their specific requirements. Since foundation, Horad has been committed to becoming a leading manufacturer of intelligent PV panel production lines by focusing on the solar panel line R&D, designing, manufacturing, sales and services.

How to deliver a solar panel making machine or a production line?

To deliver a solar panel making machine or a solar panel production line that performs, we take special care to quality control in each stage: We are at your side in each stage of building your solar panel factory and production lines. Express your needs on solar panel producing, we will create your custom automation equipment.

How big a solar cell can a production line make?

Strong applicability: the production line can make solar panels with each weighing up to 50kg and of a size up to 2,500mm\*1,400mm. The biggest solar cell the line adapts to is M12 (210mm). The turnkey line can meet demands of customers of various types and scales.

Why do you need a top-of-the-line photovoltaic production line?

Top-of-the-line production lines guarantee seamless production, resulting in high-quality photovoltaic cells and modules. Comprehensive warranty and a responsive after-sales service also provide assurance that assistance does not end at installation. The successful projects speak for our technical force and service capacity.

Who is ecoprogetti?

With over two decades of experience in production systems for photovoltaic module manufacturing, Ecoprogetti is a competent technology and process expert for future markets around the world. Ecoprogetti Srl is the European market leader for Solar Panel Manufacturing Equipment. Each machine is 100% produced in Italy since 1998.

Adhering to the product value proposition of "create sustainable and efficient green energy", Astronergy focuses on developing an intelligent system integrating production, supply and marketing from manufacturing, supply to sales; and ...

# Photovoltaic panel intelligent production line manufacturer

To improve production efficiency, our Solar/PV modules production line is equipped with intelligent MES and defects detection systems: EL-VI, Hi-Pot, IV, Calibration, and other testers. Equipment is made with high-quality hardware ...

A turnkey line is a complete production line for PV module manufacturing. Horad provides 750MW, 300MW and 100MW turnkey lines for customers. ... Horad, as a specialist manufacturer of intelligent PV panel production line, is committed to ...

Since foundation, Horad has been committed to becoming a leading manufacturer of intelligent PV panel production lines by focusing on the solar panel line R& D, designing, manufacturing, sales and services. Our product family is made up ...

As a leading manufacturer of turnkey line solutions for PV intelligent equipment, Radiant is specializing in the R& D, design, production, sales and related services of high-tech automation complete sets of equipment. ... Radiant PV Solar ...
