

Photovoltaic panel membrane structure manufacturers

What type of membrane is used for bifacial solar panels?

Light-colored membranes for bifacial solar panels - White-colored single ply or liquid applied membranes with high reflectivity can be used as a substrate for the placement of bi-facial solar systems.

What is a tamarack solar module racking structure?

Our innovative solar module racking structures are designed to install quickly and provide secure mounting for modules from nearly all manufacturers. With pole, roof, and ground mounts for solar panels, the Tamarack line of products has a solution for your grid-tied or off-grid application.

What are S2A modular solar panels made of?

S2A Modular solar panels are made of two-tone polysiloxane protective coating in S2A Modular's trademark green and white. They also feature laser cut, back-lit, solar wrap column enhancements which include an illuminated S2A Modular logo.

What is SikaShield® Pure-Air roof membrane?

As the battle against these pollutants intensifies, Sika introduces its innovative solution: the SikaShield® Pure-Air roof membrane. Cool roofs are one of the most effective and easiest solutions to increase the thermal comfort of buildings and reduce cooling costs in hot climate countries with high solar radiation and outdoor temperatures.

Can Versol mount a photovoltaic power station?

Versol's V-Basic mounting system can be applied to photovoltaic power stations in different terrain and environment. The product range includes a wide range of models and styles, and is highly adaptable.

Can SolarScapes be integrated into a new structure?

SolarScapes can be easily integrated into any new or existing structure. Infinitely configurable to meet the needs of any project.

Kern Solar Structures provides Solar Installers and Developers of all sizes with premium grade solar structure solutions, no matter the complexity or scale of the job. Learn more about the complete range of solutions offered by Kern Solar ...
