

# Photovoltaic panel quality inspector training

Are the photovoltaic system Inspector (PVI) and solar heating system Inspector (SHSI) exams available?  
According to the information on the NABCEP website, both the Photovoltaic System Inspector (PVI) and Solar Heating System Inspector (SHSI) certification exams are available.

What is a PV installer specialist (PVIs) board certification?

The PV Installer Specialist (PVIS) Board Certification was designed for those who are highly competent with all aspects of PV installation processes, from installing DC and AC PV system conductors, raceways, system monitoring, control, and communication hardware to developing safety plans.

What are the new solar Inspector certifications?

NABCEP has officially launched two new solar inspector certifications: one for photovoltaic systems and the other for solar heating systems.

What is the NABCEP solar heating system inspector certification?

The NABCEP Solar Heating System Inspector Certification is a voluntary certification that provides a set of national standards by which Solar Heating System Inspector Professionals with skills and experience can distinguish themselves from competitors.

What are the prerequisites for solar inspector certification?

What we find particularly interesting about the new solar inspector certifications are the lack of stated prerequisites. The name alone implies that the candidate should have some familiarity with photovoltaic and/or solar thermal systems, but NABCEP does not explicitly state what they expect that familiarity to be.

How do I find a NABCEP certified PV system Inspector?

\*\*To locate a NABCEP Certified PV System Inspector, please go to [installer-locator](#). If the system has been sold but not installed, the applicant must submit a signed letter from the customer stating that they are satisfied with the sales process and the purchased PV installation system.

**PV System Inspector (PVSI):** PV System Inspector Certification is a voluntary certification that provides a set of national standards by which PV System Inspector Professionals with skills and experience can distinguish themselves ...
