We believe that solar should be affordable to all people not just to the wealthy. Wholesale Solar Warehouse is your trusted partner for all your DIY solar projects!

Should you install solar on your warehouse roof?

The Upfront Costs of Solar Installation Having solar installed on your warehouse roof may reduce your monthly energy bills. And solar can provide a great benefit in taking a warehouse into a more sustainable future if planned properly. But what makes people think twice about solar is the upfront cost that's involved.

Who sells REC Solar panels?

Solar Electric Supply, Inc., a proud REC Authorized Distributor, offers an extensive range of REC solar panels, including the latest premium. As an international pioneer in solar energy, REC Group, headquartered in Norway with operational hubs worldwide, is renowned as Solar's Most Trusted brand.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert solar DC power to home-friendly AC power and provide net metering capability. Batteries optimize cost savings by storing surplus energy when rates are lowest and utilizing it during peak demand times. They also serve as a reliable backup power source during outages.

Is Panasonic a good solar company?

Panasonic, a trailblazer in the solar industry, has been championing the green revolution for over 40 years. Beginning with the groundbreaking research on amorphous silicon solar cells in 1975, Panasonic set a new benchmark in 1997 with its HIT technology, which boasts some of the highest conversion efficiency ratings in the market.

In many ways, a typical warehouse roof offers the ideal landscape for hosting a solar power system. Not only does it have plenty of square footage to support a lot of solar panels, but it's also high enough off the ground that shade usually ...
