

What to do to prevent killing birds when installing solar panels? To prevent bird deaths when installing solar panels, consider the following steps: Choose the Right Location for Your PV Solar Panels; Select a site that is not ...

The main reason to keep birds away from your panels is to protect the PV system from bird droppings. Droppings can stop your panels from absorbing light, and may even erode the panels and wires. Pigeons might also see your panels as ...

Solar panels are a high-value investment that unfortunately can be vulnerable to damage by birds. One of the things your solar panel salesperson may not have shared with you is that this kind of damage is unlikely to be covered by your ...
