

# Price trend chart of old photovoltaic panels

What happened to Photovoltaic prices in October 2024?

Overview by technology of different price points in October 2024, including the changes over the previous month: Only tax-free prices for photovoltaic modules are shown. The prices stated reflect the average offer prices in retail and on the European spot market (customs cleared).

How has photovoltaic efficiency changed over time?

Since their inception in the 1950s, photovoltaic efficiency over time has shown remarkable improvement, transforming solar energy from a niche technology to a mainstream power source. In the early days, solar efficiency over time was relatively low, with panels converting only about 6% of sunlight into electricity.

Will PV system price trends remain a downward trajectory?

As shown in Figure 13, most analysts also project that PV system price trends will maintain their downward trajectory in the near term. Owing to the global scope of most solar companies, analysts often project system prices across sectors and countries.
