These solar professionals can handle new installations as well as repairs and retrofit projects. Paxton Energy Inc. features residential solar installation services in the Los Angeles area.

What is a solar photovoltaic (PV) system?

Solar photovoltaic (PV) panels collect the energy of the sun to produce electricity. They are complicated pieces of technology and should not be handled by someone who is unknowledgeable on the subject. Today, many companies that sell solar energy systems employ an army of salespeople to peddle their products.

Inadequate roof penetrations can result in water damage to the building or even module detachment. Pay close attention to sealing and fastening the roof hooks in the rafters, ensuring a sturdy and weather-resistant connection. ...
