

Ranking of photovoltaic aluminum bracket manufacturers

How good is a rooftop solar PV array?

A rooftop solar PV array is only as good as the mounts and rails it sits upon. Below we have the latest updates from 16 manufacturers across residential and commercial & industrial solar mounting systems, and approaches vary greatly.

What are the best solar mounting and racking brands?

The top two high-quality solar mounting and racking brands are: Originally, IronRidge supported mostly small, off-grid projects. But today, IronRidge is known for its uniquely shaped and durable XR rail series for pitched roofs. They have equally great options for flat roofs and ground mounts, as well.

What is the best roof mounting system?

The SMR System is the best-value pitched roof mounting system on the market. Optimized design makes the SMR Rails not only the lightest but also the strongest rails on the market. One-tool assembly and Pop-On technology allow for a fast and worry-free installation. The Roof Versatile system is engineered to function on any roof material or pitch.

Which roof racking system is best?

Using patented counterbalance technology, Z-Rack is the most universal sloped roof racking solution available. Allowing systems to lay flush on any roof type, Z-Rack requires no penetrations for installation and shaves install time down for projects of any scale. The SMR System is the best-value pitched roof mounting system on the market.
