

Recruitment of workers to install photovoltaic panels

Will solar photovoltaic installer jobs grow in 2021?

Although industry-wide statistics are currently unavailable, the U.S. Bureau of Labor Statistics (BLS) projects that solar photovoltaic (PV) installer jobs could grow by 27% between 2021 and 2031.

What does a solar photovoltaic installer do?

Solar photovoltaic installers are key to the process of solar panel installation and maintenance. They use specialized skills to install residential and commercial solar projects. They are responsible for safely attaching the panels to the roofs of houses or other buildings and ensuring that the systems work.

What are the different types of solar installation jobs?

These jobs are widely available, as solar installation companies are located nationwide. PV installers do a lot of work on roofs, laying down the solar racking system, panels, and wiring. Other areas of PV installation can include battery installation, site assessment, and roofing. Disclaimer! Working in solar can be physically demanding.

How much do solar photovoltaic installers make a year?

The median annual wage for solar photovoltaic installers was \$48,800 in May 2023. Employment of solar photovoltaic installers is projected to grow 48 percent from 2023 to 2033, much faster than the average for all occupations. About 4,100 openings for solar photovoltaic installers are projected each year, on average, over the decade.

How does solar photovoltaic manufacturing work?

In the United States, solar photovoltaic manufacturing is highly automated. Machines do the majority of work: cutting semiconducting materials, such as crystalline silicon, into wafers, turning them into solar cells, and assembling the solar cells into solar panels.

Do plumbers & electricians work on solar installation projects?

Plumbers and electricians working on solar installation projects must also have specialized training on the systems that they will be installing, or they must work under the supervision of a qualified solar photovoltaic installer.

Individuals in the solar energy field can work in various roles, including positions in manufacturing and installation. Learning about the different career options in this sector can help you find one that's right for you. In this ...
