

# Solar Photovoltaic Panel Quote

Are solar panels worth it?

Solar panels can generate major savings if you're trying to reduce your electricity costs, carbon emissions or both. The primary factor in determining whether or not solar panels are worthwhile for you is the cost you're currently paying for electricity. The higher your electricity costs, the more a solar panel system will save you in the long run.

How much does a solar panel installation cost?

The best way to evaluate the price of a solar panel installation is in dollars per watt (\$/W). Similar to comparing dollars per square foot when shopping for a home, \$/W helps standardize the cost of solar by showing the cost of solar on a per watt basis. Currently, the average price of a solar panel system install in the U.S. is \$2.91/W.

Do solar panels void a warranty?

Improper installation can void your system's warranty. Instead, we recommend hiring a local solar panel installation company to correctly install your system for maximum safety and efficiency. To arrive at the average costs in this article, we surveyed 27 local and national cost databases.

Are solar panels a bad idea?

The second negative of solar panels is that they are still cost-prohibitive to many low- and moderate-income households. Solar panels typically cost around \$25,000 (before incentives). Many homeowners don't have that kind of cash lying around or strong enough credit to qualify for financing.

Should you buy a solar panel?

Think of using the calculator like checking the Kelly Blue Book value of a car you want to buy. Just having a baseline solar panel cost can help you avoid scams, reduce sticker shock, and give you a head start on saving up cash or improving your credit to secure financing.

Are solar panels a scam?

Beware of extremely low solar prices. You want to be cautious of installers selling solar panels for under \$2.60 per watt, as you may run the risk of getting a low-quality installation or sub-par customer service. Extremely low solar prices can be a sign of a solar scam.
