

Solar Power Sheep Fence

Are electric fence energizers good for sheep?

Electric fence chargers have become much more sophisticated than the older type low powered fence energizers. Electric fence for sheep can be maintained even in remote areas with the new solar powered chargers. Voltage must be maintained at all times if an electric fence is to be effective.

What is a solar electric fence charger?

Solar electric fence charger: Our cutting-edge 2.3W solar panel charges fast in low light conditions, ensuring reliable power for your solar fence charger. High-capacity battery storage for up to 10 days of containment and predator protection in remote areas

How do I set up a solar-powered electric fence?

Electric fence kit: Ideal for remote areas with no mains power, setting up this solar-powered electric fence is easy even with zero experience. Connect your netting fence, wire, polytape, polyrope or polywire to the electric fence energizer, and enjoy hassle-free electric fencing in minutes

Do Sheep need electric fencing?

The use of electric fencing for sheep is relatively new in the United States. Several other countries have used electric fencing with great success for several decades now. Electric fencing is more economical than standard barbed wire or hog wire fencing.

Why should you use solar fence chargers?

The low impedance smart technology built into solar fence chargers means that you don't have to worry too much about the effectiveness of your electric fence being impeded by weed growth. In other words, your animals and property will be kept protected by a fence kept at a consistent voltage, throughout the year.

How do you connect a solar fence to a Zareba® Charger?

Connecting your fence is simple with the easy-grip knobs on your 5-mile solar Zareba® charger. Attach the fence's ground wire to the post with the green knob and the live hot wire to the red knob. Remember to turn your charger off before making any connecting wire adjustments and then turn it back on so it continues to gather solar energy.
