

Since Solar is an intermittent power generation, functioning on the average 17% -22%, this renewable electricity has to be backed by base load, mostly "dirty" energy that has to be available 24/7 to balance the solar power generation, in ...

Volt is an innovative roof solar tile, designed to be fitted alongside standard roof tiles, mimicking their shape and profile to seamlessly integrate and not disturb the roofs aesthetic like that of a standard panel. Designed from the ground up by ...
