For home or business, save 26% with a solar tax credit. Click on a solar kit below to review parts list and options for battery storage, EV charging and installation.

How much does a 4 watt solar system cost?

As of January 2022, the average cost of solar in the U.S. is \$2.77 per watt (\$11,080 for a 4 kW solar system). That means the total cost for a 4,000-watt solar system would be \$8,200 after the 26% federal tax credit discount (not factoring in any additional state rebates or incentives).

What is a solar generator kit?

A Solar Generator Kit has everything you need to go solar quickly and easily. Whether you want to keep your devices powered up during a blackout or take power with you on the go, Solar Generator Kits from Shop Solar have the top portable power stations on the market yet still manage to save you 50% or more on the cost of a solar power system.

Which battery is best for a 4KW solar generator?

LiFePO4 batteries are the best for large solar generators. They are stable, they charge fast, and they last a heck of a long time. LiFePO4 batteries are heavy, but this is usually not a problem because 4kW solar generators are not designed to be moved around anyway.

How much electricity does a 4 kW solar system use?

The cost of electricity where you live is the biggest determinant of your solar savings. The table below shows the average estimated electricity production numbers for 4 kW solar energy systems in cities across the U.S. By comparison, the average household in the U.S. uses 893 kilowatt-hours (kWh) a month, which equals 10,715 kWh per year.

How much power does a portable solar generator use?

The wattage required to run each item may vary, and most portable solar generators can power in the range of 100-500 watts. Smaller units typically have a lower power capacity and can only charge small devices.

Replace noisy, smoky generators with a silent, fume-free home backup power station. X-Stream Fast Charging? Fully recharge the DELTA Pro in 1.8 hrs with 240V outlets (3000W), 2.7 hrs with 1800W wall outlets or solar charged in 3.5 ...
