

Solar panels with batteries and generators

Much like with solar panels, a generator and battery cannot power your home at the same time. When the power goes out, the solar battery will power your home first until it is depleted. Then the generator will kick in. Below, solar expert ...

How do I connect a whole house generator, solar panels, solar batteries and grid in order to 1) if grid is out use solar first, solar batteries next and finally generator. if the grid is on, use solar first, batteries next and finally the ...
