What is the \$7 billion solar for all program?

Oops, something went wrong. Check your browser's developer console for more details. Under the \$7 billion Solar for All program, the 60 grant recipients will create new or expand existing low-income solar programs, which will enable over 900,000 households in low-income and disadvantaged communities to benefit from distributed solar energy.

Who will receive a \$7 billion solar grant?

Washington - Today, April 22, as the Biden-Harris Administration celebrates Earth Day, the U.S. Environmental Protection Agency announced 60 selectees that will receive \$7 billion in grant awards through the Solar for All grant competition to deliver residential solar projects to over 900,000 households nationwide.

Are government subsidies promoting green technologies?

Given the global concern about the existential threat posed by climate change, government subsidies aimed at spurring green technologies and the green transition--from solar panels to electric vehicles--can play a greater role. And the number of subsidies with green objectives is indeed increasing, according to the World Bank's new .

How many GW of solar energy will a low-income community get?

Programs funded by Solar for All will deploy and unlock over 4 gigawatts (GW) of distributed solar energy entirely for low-income and disadvantaged communities. According to analysis from the U.S. Department of Energy, by the end of 2023, low-income households were benefiting from approximately 7 GW of solar energy.

Will Washington expand solar access to income-qualified residents?

Washington will launch several programs that will expand solar access to income-qualified residents and frontline communities throughout the state. These programs will complement existing programs and policy to support distributed solar in the state.

What are the benefits of residential Distributed solar energy?

Residential distributed solar energy will lower energy costs for families, create good-quality jobs in communities that have been left behind, advance environmental justice, and tackle the climate crisis.
