

Solar power panel sales

Where can I buy solar panels?

Generate clean, renewable electricity for your home, business, marine vessel, or RV using solar panels from EcoDirect! Located near San Diego, California, EcoDirect sells solar panels online and offers will-call options for local customers. For sizing help, please call us at (760) 597-0498 x2.

What is a solar panel kit?

Our solar panel kits for home are easy for you or a contractor to install. Each solar panel kit comes with solar panels, grid-tie inverters and mounting hardware and is customized to your energy needs and home's unique specifications. Take our quick questionnaire to create a custom solar panel kit based on your energy needs.

How much do solar panels cost?

Solar system prices vary, depending on the type of solar panels, manufacturer, cell size and wattage output. Our solar panels cost between \$300 to \$400 per panel, which is a competitive price considering the brands' top-tier quality and high standards. Some solar panels can run as high as \$600.

Are solar panels sold separately?

*Solar panels are not sold separately. Grid tie inverters convert solar DC power to home-friendly AC power and provide net metering capability. Batteries optimize cost savings by storing surplus energy when rates are lowest and utilizing it during peak demand times. They also serve as a reliable backup power source during outages.

Where can I find information about solar panels?

Browse and compare solar panels from top manufacturers on the EnergySage Buyer's Guide. To learn about other solar energy system components, visit EnergySage's solar inverter and solar battery buyer's guides. Solar panels are the key component in any residential, commercial, or utility-scale solar energy system.
