Tata Power Solar offers solar rooftop for home. Save and Earn from your idle rooftop space. for our residential customers. WHY tata power solar? If you have a roof of area 100-200 Sq. Ft. If you have a roof of area 200~300 Sq. Ft. If you have a roof of area 300~500 Sq. Ft. If you have a roof of area 500~700 Sq. Ft.

How much solar power does a roof generate?

In a perfect world, the average roof in the U.S. can generate around 35,000 kilowatt-hours (kWh) of solar electricity annually--far more than the average home's annual electricity usage of 10,600 kWh. Realistically, your roof's solar generation potential will be less than that.

Why should you invest in a solar roof in India?

India is on the cusp of a solar revolution and we at Tata Power Solar have been right at the forefront, leading the move towards sustainable energy solutions. Investing in rooftop solutions leads to great savings, while protecting the environment. Tata Power Solar offers solar rooftop for home. Save and Earn from your idle rooftop space.

Should solar panels be installed on a south-facing roof?

Ideally, your solar panels will be installed on a south-facing roof at an angle of about 30°. These are the optimal conditions for solar panel production. The closer you get to this, the more electricity your panels produce. Solar panels with a larger power-to-size ratio will produce more electricity per square foot.

Can a solar roof save energy?

Total energy savings of up to 38% are built into the roof in this way. Additionally, when you're running the AC less, the size of the solar power system can be reduced. If, for example, you install a Tesla roof and need an 8.5kW system, you might only need a 7kW system with a 3 IN 1 ROOF.

Which roof is best for solar?

The ideal roof for solar is one facing south with enough slope to properly tilt the panels and enough room for them. We recommend using the amazing Project SunRoof by Google to see if your home is economically suitable for going solar. A west-facing roof is second-best ahead of an east-facing roof.
