CALL - 1.877.786.6299 Introducing the StorMaxx(TM) SE - the ultimate solar hot water storage solution that lets you experience cutting-edge technology! This amazing product boasts a highly durable porcelain enamel, glass-lined tank that can withstand even the most abrasive water conditions.

Which solar storage tank Options does sunearth offer?

SunEarth offers both single wall and double wall indirect solar storage tank options that when combined with our direct solar storage tank means that no matter your solar storage tank needs SunEarth offers the right solution.

What is a dip tube in a solar storage tank?

A "Dip Tube" is a pipe that is constructed in such a way to allow cold water to flow from the entrance at the top of a solar storage tank to the bottom of the storage tank where the rest of the cold water is located. The dip tube carries the cold water to the bottom of the tank, and this action will push up the hot water up to the top of the tank.

Can a solar hot water collector be used for industrial use?

Whether for laundry, maintenance, sanitation, or more, solar thermal systems can offset a majority of heating costs for up to 25 years or greater with little maintenance. For industrial needs, SunEarth solar hot water collectors can be used as part of a highly effective industrial water preheating system.
