

Suntech 320W photovoltaic panel

Who makes Suntech Solar panels?

Suntech, founded in 2001, is a solar panel manufacturer based in San Francisco. On this page, you can find a complete list of solar panels from Suntech and compare models side-by-side. Quick facts about Suntech solar panels in the EnergySage Buyer's Guide: Are Suntech solar panels best for you? How to choose the right solar panels for your needs

How many countries does Suntech supply photovoltaic modules to?

Founded in 2001, Suntech has supplied over 22GW photovoltaic modules to more than 100 countries.

Why should you choose Suntech standard module?

The unique cell design leads to reduced electrodes resistance and smaller current, thus enables higher fill factor and decrement of CTM losses. Meanwhile, it can reduce losses of mismatch and cell wear, and increase total reflection. 1 10 25 WARRANTY STARTING DATE.****Please refer to Suntech Standard Module Installation Manual for details.
