

# The best equipment for solar power generation

Grid-tied systems are the most common and the cheapest because they use the least amount of equipment: solar panels, wiring, racking, grid-tied inverters, and a net meter. Hybrid solar systems use the same equipment as grid-tied systems ...

Knowing the different parts of a solar power system is the first step to choosing the best one. A grid-tied solar energy system includes solar panels, inverters, racking, a net meter, and a solar performance monitoring system. You'll need ...
