

Trina PV Inverter Price

How much do Trina Solar panels cost?

Trina solar panels range in price from \$160 to \$230. The price for a Trina home solar kit is lower than buying each part of a system separately.

Are Trina Solar panels reliable?

TRINA solar panels are world most renown solar panels. Features best in class efficiency, highly reliable and very price competitive. Trina Tallmax Plus 370 is a 72 cell monocrystalline module with maximum power efficiency at 19.3%. This solar panel is highly reliable due to stringent quality control at the point of manufacture.

Are Trina 370w solar panels reliable?

Trina Tallmax Plus 370 is a 72 cell monocrystalline module with maximum power efficiency at 19.3%. This solar panel is highly reliable due to stringent quality control at the point of manufacture. Trina 370w solar panel certified to withstand heavy snow loads at 2400Pa and wind pressure up to 5400Pa.

What is Trina Solar?

Trina Solar is a global leader in the field of solar PV modules, solutions, and services. Founded in 1997, the company was a pioneer in solar systems and today stimulates the development of the smart energy sector along with installers, distributors, utilities, and developers around the world.

Is Trina Solar bankable?

Bloomberg New Energy Finance (BNEF), in its 2016 survey of key PV stakeholders, announced that 100% of respondents said that Trina Solar was bankable, confirming the leading position in the solar PV market.

Does Trina Solar have a warranty for their panels?

Trina backs every module with a 10-year product and a 25-year linear power output warranty. Trina guarantees their module output to be at or above its nameplate wattage. Please refer to the datasheet that comes with every Trina solar panel.

Features. High Power Output - Reduce BOS cost with high power bin and module efficiency. New cell string layout and split junction box location reduces the energy loss caused by inter-row shading. Lower resistance of half-cut cells ...
