

Trinity photovoltaic panel authenticity identification

Which brand of solar panels does Trinity provide?

In our research, we found that Trinity has provided Qcells solar panels, a well-known, reliable brand of solar panels across the industry. Other major providers, such as Tesla, use Qcells for solar projects. However, the brand of solar panels you receive from Trinity depends on the availability in your area at the time of installation.

Does Trinity solar install solar panels on the east coast?

Trinity Solar has been installing solar panels on the East Coast for nearly two decades. Here's how the long-tenured company compares with the rest of the industry. While the residential solar industry is no longer in its infancy, a company that started installing solar in 2004 is one of the old guard.

What is a typical installation experience with Trinity solar?

A typical installation experience with Trinity Solar would look as follows: The first step of going solar with Trinity is an energy consultation. It consists of submitting your address, phone number and electricity bills. This is followed by a discussion with a sales rep and an analysis of your bills.

Is Trinity solar a good solar installer?

Although some customers have had an unpleasant experience with Trinity's customer service, its massive growth over the years and majority of customer reviews suggest that the company's customer service - particularly the customer service manager - is laudable. Trinity Solar is not necessarily identified as an inexpensive solar installer.

Does Trinity solar have good customer support?

Trinity Solar provides exemplary customer support for its solar products. Trinity Solar features some of the best customer support tools we've encountered in our research. Past customers comment on its quality service, and it only works with certified installers.

Does Trinity solar offer a roofing service?

Trinity is also set to launch a roofing service in the near future. A typical installation experience with Trinity Solar would look as follows: The first step of going solar with Trinity is an energy consultation. It consists of submitting your address, phone number and electricity bills.

Trinity designs solar power systems based on your existing electricity bills and tries to generate as much electricity as possible from the solar panels. This means that an ideal solar system will offset most or all of your ...
