

Villa photovoltaic panels for rent

Are solar panels a good option for renters?

The simple answer for renters who want solar panels for their apartment or house is that it's possible!

What are the benefits of solar panels on a rental property?

Another benefit of solar panels on a rental property is the increase in property value. Advanced technology such as solar panels can attract more interest, especially from environmentally-conscious renters.

Who offers residential solar installation services in Los Angeles?

Specializing in residential and commercial projects, Long Beach Solar offers solar solutions to customers in the Los Angeles area. These solar professionals can handle new installations as well as repairs and retrofit projects. Paxton Energy Inc. features residential solar installation services in the Los Angeles area.

Is solar a good investment for a tenant?

Renters typically have a harder time, especially in an apartment building. Unless your landlord recognizes the value of going solar and is willing to make the investment--it doesn't hurt to ask--you might feel like it's out of your hands. But there are still ways to tap into solar as a tenant if you're willing to think outside the box a bit.
