

Vocational College Solar Power Generation

What is a college credit certificate in solar energy systems specialist?

The College Credit Certificate (CCC) in Solar Energy Systems Specialist trains students in how to design and install Solar Photo-Voltaic and Solar thermal systems panels in both commercial and private environments.

What can I do with a CCC in solar energy systems specialist?

Program areas of study include: Students in the CCC in Solar Energy Systems Specialist will acquire the skill-set necessary to fill a growing need for trained professionals that can design and install Photo-Voltaic (PV) panels and solar thermal systems in both commercial and private environments.

Does TSTC offer a degree in solar technology?

TSTC is just one of two schools in Texas and one of only a few in the nation offering a degree in Solar Energy Technology. With more and more corporations, businesses and homeowners using solar energy, job opportunities in solar technology are growing. As a solar technician, you will learn... And more!

What will I learn in a 2 day solar PV course?

In this 2-day course, you learn about: The fundamental science behind how solar PV systems convert the sun's energy into electricity. How fundamental concepts of electricity relate to solar PV system design and performance. Solar PV panel and system operation according to solar PV generation principles.

How do I become a solar power installer?

To qualify for the certification exams, you must complete a certain number of training hours through an accredited program. You also need construction safety training through the Occupational Safety and Health Administration (OSHA) as well as some industry experience. Installation makes up the largest share of solar power jobs.

What is the solar Instructor Training Network?

The Solar Instructor Training Network developed a robust local training network across the United States. During its term, the program partnered with more than 400 community colleges, labor training centers, and technical high schools.
